Dear Carol,

I am writing this letter to let you know that I oppose the site of Yucca Mt. as a high-level nuclear waste repository - I feel you will be endangering the lives of Nevadans if you vote yes for this site. Ground water will become contaminated, & since we live in an earthquake active state we are geologically unstable -

Once more I ask you to vote "No" for the Yucca Mt. site.

Yours Truly,

Joyce McCormack
