Carol Hansen
Yucca Mountain
PO Box 30307
N.L.V, NV 89036-0307

dear Ms Hansen:

The issues for not using Yucca mountain, have been clearly provided for us. It seems absolutely insane to continue the pressure on us to comply with the "need" to do it.

Aside from all the reasons mentioned, we are on an earthquake "fault". Without outside interference, the strong movement of the "fault" could render us completely vulnerable.

In view of the problems with terrorists throughout the world, Yucca mountain would be a worthy target for them. They would die with honor. We would die because of our stupidity.

Sincerely

Jerome J. Funk
