RE. Public Scoping Meeting;
- Request to be read into Records of meeting.

from: Lary E. Marks
[redacted]

Question and Request for Finding of facts?

1. During The Shipping of Highly-Radio-Active materials:

Has There been any Testing of The Shipping caste or Containers as to what The effects would be on These caste or Containers if A Armour-pericing missle was To be used on one of These Containers Through The proposed corridor.

2. If one of These Containers were exploded? how would The Radio-Activity be Contained both in The Air, over Rivers or on The Surrounding ground areas. And how many Years The Area would be Contamated.
