MR. O'CLAIR: Lucas Michael O'Clair,

19 O-C-L-A-I-R.

20 I don't want the facility here. And I don't
21 want a truck to be driving with the nuclear waste
22 across town and it gets in a car crash and then it
23 leaks, then it gets all over the road. And if it gets
24 into our water, we could get cancer.
