Subject: NUCLEAR WASTE SHIPMENT THRU MISSOURI

Part of Records Package / Supplement / Correction

The idea of hazardous waste coming through our state and small towns throughout the city and county for years to come is indeed chilling to contemplate. The distance that this waste must be transported increases the probability of dangerous accidents along the way. This could be comparable to the effect of biological or chemical warfare in the United States.

Please register our fears and serious objections, and add our voices to those who oppose the transport of this radioactive waste through our towns in Missouri, and through the United States. The proposed dumping at the Yucca Mountain site may prove disastrous to that region in Nevada as well.

Yours truly,

James O. Phelps and Marian Phelps
412 Hawbrook Court
Kirkwood, Missouri, 63122
