FACSIMILE

RECEIVED

OCT 05 2001

TO: Ms. Carol Hanlon (S&ER Products Manager/U.S. DOE)
FROM: Mr. E. Olson (S.M. Stoller Corp.)
DATE: 3 October 2001
SUBJECT: Comments Regarding: Yucca Mountain Preliminary Site
Suitability Evaluation

Dear Ms. Hanlon:

I have followed the results of the scientific studies evaluating the Yucca Mountain Site for disposal of spent nuclear fuel. Based on these studies and recent developments, I am convinced of the following:

- (1) The Yucca Mountain Site is an excellent site for the disposal of this high level radioactive waste, and
- (2) It is important that the movement of this waste be done as quickly as possible from the current on-site nuclear power plant storage locations to Yucca Mountain.

Therefore, I hope that the DOE will recommend that the Yucca Mountain Program proceed expeditiously. I would welcome any contact with the DOE to discuss my views in more detail.

Best regards,

Eric Olson
