September 27, 2001

Secretary of Energy Spencer Abraham  
1000 Independence Ave SW  
Forrestal Bldg 7A-257  
Washington, DC 20585

Secretary Abraham:

Formulation of effective energy policy is urgent and essential to our nations future. Sound energy policy cannot continue to ignore the issue of nuclear waste disposal as nuclear power generates 20% of our electricity without emitting greenhouse gases and other harmful airborne pollutants.

Sincerely,

Valderia Moore
