WANDA HELSING, I'm Wanda Helsing, W-a-n-d-a

552292

18 H-e-l-s-i-n-g.

19 I'm a 21-year resident of Nevada, and I can't  
20 believe when I first moved here in 1980 they were talking  
21 about this very same issue, and I said to my husband  
22 then, well, this isn't really going to happen is it? I  
23 mean, this is insane.

24 And so the years have gone by, I've raised  
25 five children, all five of which live here, I'm a

116

1 grandparent, and I heard this on the radio myself  
2 yesterday, and I said, well, I have to come down here  
3 because I hate nuclear energy, and I just -- you know, it  
4 is poisonous, you know, to all living things, and it  
5 just -- I'm just shocked that, you know, you're right,  
6 they want to push it down our throats, it's only Nevada,  
7 it's just desert. God, who goes there anyway except for  
8 maybe to Vegas or Reno to gamble? And I just had to, for  
9 my children, to say I'm against this, I will fight, too.

10 And this terrorist thing, this is just like,  
11 God, what a nightmare. Yeah, let's get the trains and  
12 let's blow it up, no matter where it's crossing. I mean,  
13 God. You know, that has disaster, tragedy written all

14 over it.

15 Thank you. I just want to say I'm against  
16 it. I don't have any statistics. I know geologists,  
17 too, but -- and, yeah, did you feel the earthquake? Was  
18 it just, remember, a month ago, right here we had that  
19 little bitty quake. I work at the municipal court, I'm  
20 doing this as a private citizen, but I'm standing there  
21 in a solid rock building, block, stone block, and my  
22 monitor, you know, is shaking, so it wouldn't take -- I  
23 just don't believe it is safe and I think it's terrible.

24 Thank you.
