Subject: nuclear waste rejection.

Part of Records Package / Supplement / Correction

- C.htm

**553279**

In the wake of terrorism, and the future of more terrorism, it would be an act of war, by the U.S. Government on Nevadans, to have nuclear waste shipped to our state to be burried near our city of Las Vegas.

we do not want the waste of other states or countries here in Nevada. I am hoping that a class action law suit will be brought against the DOE if they insist on sending that radioactive waste to be burried near an exploding populated area. Bury that crap in siberia. Russia was willing to have the waste burried in the unliveable frozen north of siberia for a price. just think if a terrorist airplane loaded with fuel (like at the world trade center) were to crash into Yucca Mountain loaded with nuclear waste.

thanks
