To whom it may concern at The Yucca Mountain Project:

We are writing to you tonight to express our objection to the proposed Yucca Mountain Nuclear Depository at the Yucca Mountain Project.

We are all tenured Nevada residents with either young children or grand children. Depositing nuclear waste in Nevada (which is no longer a vast waste - land but is now home to millions of people) especially in lieu of the danger of terrorist attacks in this most tenuous of war times and with the possibility of unpredictable seismic activity occurring in the area is no less than negligent and insane.

WE ARE UNEQUIVOCALLY AGAINST THIS PROPOSED PROJECT!

Thank you,
The Nichols, Fonfas, and Sinclairs
