Dear Friends,

Comments on Yucca Mt. as a nuclear waste depository

[The Site:

1. is on the treaty lands of the Western Shoshone Nation.] 1
2. [is located in one of the fastest growing areas of the USA.
3. is located in Nevada's largest dairy farming area.
4. is in an area subject to flash floods and rapidly changing weather conditions.
5. is in an area the US DOT has yet to prepare a rail alignment EIS for.
6. is in an area that has no rail access which is the primary mode of transporting TADs.
7. is in an area where the DSEIS does not adequately address] transportation safety and security.
